

European ETF Launches

13 March 2025

big xyt's weekly European ETF Launches Update provides investors with a quick weekly summary of transparency in European ETFs, by consolidating all issued products and their liquidity across the fragmented landscape.

These updates are for product issuers to monitor the evolving European ETP landscape, for market makers to gain an insight into primary and secondary market liquidity, and for buy-side investors to see new investment opportunities.

Asset Class	Name	ISIN	Provider	Actively Managed	TER in bps	Launch Date	AUM (€)	Secondary Flow (€)	Volume Lit (€)	Volume OTC (€)	RFQ (€)	Avg Spread	Best Spread Venue

The table above shows recent launches in the European ETP space across all asset classes. Volumes are total (€) since launch and spreads (bps) are average over the prior business week.

ETF reference data sourced from Trackinsight.

big xyt offers a consolidated source of security metrics for global exchange traded fund (ETFs), derived from multiple sources, encapsulating national regulated trading venues, multilateral trading facilities (MTFs) including 'request for quote' (RFQ) volume, and OTC/SI reported transactions, all disseminated through a single, standardised, data feed or consolidated view.

Utilising this core ETF solution alongside the highest quality reference data, big xyt offers four core ETF services:

Peer Group Selection - For selected instrument(s), identify the peer group using a multitude of fund data characteristics, such as underlying asset class, geographic focus, sector, sub-sector, replication type, fund domicile, income treatment and tracking benchmark.

Venue Volumes - For selected instrument(s), reported volume from all regular markets (RMs), multilateral trading facilities (MTFs), incorporating Request for Quote (RFQ) volume along with all trade categories including OTC/SI transactions.

Venue Spreads - For selected instruments, various spread metrics (in bps) are available, e.g. 'At Touch' best bid offer (BBO), Effective spreads at flexible trade sizes such as 25k EUR, 25kUSD or 100k USD, along with Spread Presence (period of sufficient depth in the order book as %).

Pre-trade Analysis - Load equity basket(s) with holdings (or % weighting and NAV), to generate a pre-trade view on basket with individual instrument nominal, price, notional (in local and fund currency), weighting, % ADV and the average spread (bps).
